Expertise

- RF & wireless communication
- Signal processing
- Satellite communication
- Antennas & propagation
- Embedded systems
- IoT & automation

Tools & Systems

- Linux & MATLAB
- LoRa / LoRaWAN
- Kubernetes & Longhorn
- MySQL & SSH automation
- HW/SW integration
- Data acquisition & processing

Certifications

TXOne Certified Solutions Specialist

TXOne Networks · Dec 2024–Dec 2027

CCNA R&S: Routing and Switching Essentials

Cisco NetAcad · Jan 2021

Additional

English

Professional working proficiency

Volunteer Instructor

Kadet Červený Kostelec · 2017–Present

About Me

MSc graduate focused on wireless communications and embedded systems, turning ideas into working prototypes—from design, testing and measurement through HW/SW integration, data processing and real-world deployment. Experienced in university IT support, network services and clear user communication.

Professional Experience

Feb 2022

–

May 2026

Information Technology Support Specialist

VSB-TUO · Centre for Information Technology · Part-time

- Received, resolved and escalated technical support tickets for university employees and students.
- Provided support in Czech and English by email and phone, including network and system services.

Selected Projects

Oct 2025

IoT CubeSat Telemetry Receiver

VSB space research · Master's project

- Contributed to a VSB ground-station prototype for receiving and processing orbiting CubeSat telemetry.
- Awarded an extraordinary scholarship for the project.

Dec 2025

Self-Healing Kubernetes Infrastructure

Virtualization II · Semester project

- Automated NotReady detection and node restart via kubectl and an SSH script.
- Maintained MySQL availability through StatefulSet failover and Longhorn-backed persistent storage.

Education

2024

–

2026

Communication and Information Technology

Master's degree (Ing.) · VSB-TUO

- Graduated with honours.
- Thesis: Satellite Communication via LoRa Technology.

2021

–

2024

Telecommunication Technology

Bachelor's degree (Bc.) · VSB-TUO

- Thesis: Verification of the Communication Capabilities of LoRaWAN Technology in the 433 MHz Band.

Mar 2026

Sustainable Space Engineering & CubeSat Design

Erasmus+ BIP · Haute École Provinciale de Hainaut–Condorcet

- Developed a sustainable CubeSat prototype focused on eco-design and orbital protection.

2017

–

2021

Computer Applications & Network Administration

SPŠ ELIT Dobruška
